LOCATION

The Santiago World Trade Center has excellent parking availability. It is steps away from Metro stations and the largest shopping center in Latin America and is surrounded by the city's best hotels and restaurants. The CBC has discount agreements with nearby business hotels, wine stores, chocolates, and restaurants. A necessary luxury.

SPACE

The work environment designed by the CBC is aimed at effectiveness and productivity. Carefully wooded, with black and white and color printing and scanner stations, a lounge for rest and recreation, equipped cafeteria area and amenities (tea, coffee machines, mineral water with or without gas, drinks, fruits, snacks, beers, and French sparkling wine to close the week), heating and air conditioning. Modern and comfortable workstations with ample individual space, Italian ergonomic Contatto Q3 chairs and Bluetooth headphones with a built-in microphone. All this allows you to perform tasks efficiently without neglecting health and well-being.

SECURITY

Security is increasingly an inescapable necessity. The CBC has a digital entry record and controlled access with biometric control, a security camera in the common area, lockers with a key for personal use, and a high cybersecurity standard (state-of-the-art firewall with periodic updates and adaptable to needs that the users require). We have strict Covid-19 protocols and sanitized environments for the remainder of the pandemic.

COMFORT

Today's life demands practicality. Not having to worry about rents or office supplies and direct hiring support staff has significant value, as does the fact you can forget about the direct hiring of support staff. In your workspace you will have someone who receives – and filters – your calls as well as your correspondence and guests. You will also have a concierge service and support from dedicated IT staff, all in the heart of Sanhattan.

COMMUNICATION

Member companies are identified at the CBC reception by an elegant metal plate fixed on the wall. The CBC rooms are prepared for holding face-to-face meetings of up to 12 people, board sessions, videoconferences, webinars, and hybrid face-to-face / online formats. They are equipped with 43-inch screens, acrylic whiteboards, and the latest generation Coolpo All-in-One 360 ° cameras, with artificial intelligence and sound cancellation, imported directly from the US to facilitate hybrid meetings. High-speed Internet (50/50 dedicated fiber-optic link with FortiGate Firewall, WIFI connections based on Mesh protocol, in dual channel 2.4g / 5g in 802.11 a / b / g / n / ac standard).

COMMUNITY

The CBC community is made up of senior professionals who constitute a community of excellence. There are monthly talks on various legal, tax and business topics in Wine & Cheese, Pizza & Sparkling Wine formats. Everything was designed to promote networking between members and guests in a relaxed atmosphere.
